

How can The Bath Doctor help me?

- 1 Our process begins with you.** We begin by asking questions. What problems do you have with your current bathroom? Are there any special needs?
- 2 You can expect high quality, environmentally responsible products.** Whether you're looking for an acrylic bathtub liner, wall system, or bath to shower conversion system you can rest assured The Bath Doctor supplies only the highest quality products with industry leading warranties.
- 3 You will see the quality of our service in our construction methods and your finished project.** What you don't see is as important as the finished project you do see. The Bath Doctor uses highly skilled craftsmen who are experts in plumbing, carpentry, cabinetry and trim work. We will not cut corners or cover over problems to get the job done in a day.
