

Accessibility & Ease of Use

- The *Walk-Thru Insert* is a unique product that enables an individual to access their bathtub in a safe and assured manner.
- We at BCI recognize that there are many people who are unable to use a bathtub due to the high sidewalls.
- According to a recent study by the Council on Aging, numerous accidents occur annually in and around the tub area. This number can be significantly reduced with the use of the *Walk-Thru Insert*.
- The safe enjoyment of your new shower is now affordable, quick, and easy.
