What
Makes *ProVia*

Professional-Class?

Highest Standards

ProVia is committed to making doors the professional way; doors individually customized for homeowners to **the highest standards of durability, security and energy efficiency** in the residential market. A clear difference so defining that it has established a new category of professional-class doors, a better alternative to consumer-grade doors.

Beauty

A beautiful ProVia entry system will always greet your guests with classic elegance and style.

Durability

Made with the finest materials and backed by our Lifetime Limited Transferable Warranty, our durability can't be beat.

Security

We focus on the strength and security of every door so you can focus on what's really important-your life.

Energy Efficiency

Engineered to keep the elements at bay and your home comfortable all year long.

Our Culture

We've been building a reputation for quality since our company was founded over 30 years ago near Sugarcreek, Ohio, in the heart of Amish country, an area well known for quality and craftsmanship.

While old-world craftsmanship is very much a part of our culture, it's supported by modern design techniques and state-of-the-art manufacturing processes. We've created the perfect balance between traditional quality and modern technology.

Customized for You

An entry system is a reflection of you and your style. What ProVia offers is the freedom to have a door just the way you want, perfectly complementing your personality. Each made-to-measure door is a creation of it's own—**uniquely customized in 3 easy steps:**

- 1** Choose your door's **construction** from beautiful **Signet®** or **Heritage™** Fiberglass or **Legacy™** Woodgrain Textured or Smooth Steel.
- 2** Create the perfect entry from a wide range of **glass options** and door styles.
- 3** Add the **finishing touches** of hardware & accessories.

Environmental Stewardship

ENERGY STAR® qualified doors and windows are independently tested and certified to meet strict energy efficiency standards. The annual Sustained Excellence Awards are given to a select group of organizations that have exhibited outstanding leadership. ProVia has won this prestigious award 2 times and Partner of the Year 3 times. ENERGY STAR is a government backed program to help consumers identify energy efficient products.

Most of our Entry Systems are ENERGY STAR qualified.

At ProVia, not only do we manufacture energy efficient products, but we also exercise corporate environmental stewardship. Here are a few examples:

We recycle paper, metals and glass

Our Pollution Prevention Program dramatically reduced solvent usage by over 33% since 2002.

To save fuel, our trucks use the TriPac Idle Reduction and Temperature Management System.

Paperless online ordering and internal paperless fax system reduces paper use.

For more information, visit the Environmental Stewardship section of our website at www.proviaproducts.com

Tailored Just for Your Home

Nothing feels quite as good as well-tailored clothing, created specifically to your size, shape, and style preference. Off-the-rack clothing just doesn't fit everyone's measurements. Similarly, off-the-rack doors fall short of expectations in the same way.

The materials as well as the workmanship that go into custom made doors is of exceptional quality and durability, and far exceeds what is available as ready-made. Unlike consumer-grade doors, professional-class doors are customized to your exact measurements for a better fit and a more secure and energy efficient door.

Entry systems tailored for you - that's the professional way.

The Components

What makes a Professional-Class door?

460LEH, 160LEH, 612/613LEH

Our **stains are hand-applied by professionals** then oven-cured for maximum beauty and durability. **State-of-the-art electrostatic paint application** ensures a beautiful even coat.

High-performance, heat resistant window trim is warranted not to warp, crack or pull away from the door, even in sunny or higher temperature applications.

Our **polyurethane core** reduces energy loss.

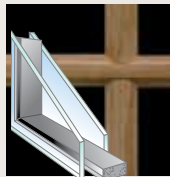

Highly skilled craftsmen assemble our Decorative Glass by precisely cutting, mitering and soldering each component into artistically designed patterns. Art glass seeks visual character through aesthetic imperfections. It achieves this through textural waves and striations, random seeds (air bubbles) and a variety of other effects. Each sheet is unique and adds beauty to any home.

Heavy-duty ball bearing hinges come standard with every entry system.

Our **INSPIRATIONS™ Art Glass** offers color accents in a wide range of designs that will make a unique statement your neighbors will be sure to notice.

We include our **20-gauge security plate** for extra strength and to help prevent kick-ins.

Your home is unique and deserves to have **custom glass options** like our ComforTech Warm Edge Glazing Systems, internal blinds, and many grid patterns and colors.

We include a **solid brass fully adjustable strike plate** of our own exclusive design. This unique 2-piece construction makes our doors easier to custom fit.

We offer **hardware from Emtex® and Schlage®** that provides some of the most stylish, durable hardware available today.

The **dust box** in the deadbolt strike provides a barrier to air infiltration while providing a neat appearance that most other door manufacturers don't provide.

Rot-resistant wood frame and brickmold is treated with **PineGuard™** and carries a Lifetime Limited Warranty when used with **PVC vinyl coated aluminum frame cladding** outside.

The energy efficient **Q-Lon weatherstripping** runs along the top and sides of the door and interlocks with the **NEW CornerShield™** for the most efficient seal you'll find for keeping moisture, air and dirt out of your home.

Our **2½" casing** conveniently covers paint lines providing a professional installation. **Also available in 3½"**. Choose from Cherry, Mahogany, Oak and Poplar.

Our exclusive **Sahara™ heavy-duty extruded threshold** has a 1½" wide thermal barrier oak-like riser that will not warp or rot while providing excellent energy efficiency. Also available with an anodized brass or bronze finish. Bronze threshold comes with a color coordinated riser.

Bulb and blade sweep virtually eliminates drafts keeping your home comfortable.

Steel L-Frame

Our Steel L-Frame is a great solution when you do not wish to remove your existing wood frame, however, not all Steel L-Frames are ENERGY STAR qualified. Visit ProVia's website for manufacturer's certification statement.

Available on select Signet and Legacy door styles.

Aluminum door stop provides greater security and is more durable than wood.

Q-Lon Seal for superior energy efficiency.

18-gauge steel L-frame with a 12-gauge hinge plate welded on for extra strength and security

...now that's a better alternative to consumer-grade.

Signet® Fiberglass

Signet Fiberglass doors are available in Cherry, Mahogany, Oak and Fir Series. Structurally, the Signet door is far superior to traditional fiberglass doors with robust hardwood stiles and rails dovetailed at each corner. All Signet fiberglass doors exhibit our exclusive DuraFuse™ finishing system featuring P³ Fusion, allowing us to offer an industry-best 10-year* finish warranty.

Cherry Series

Mahogany Series

Oak Series

Fir Series

Only available on 003C, 420, 420-DS & 160

Patent Pending

You can customize your entry by ordering a different series, style and finish on each side of your door.

Custom Widths & Increased Height up to 8 FEET.

Need a little more height or a little less width? We are pleased to offer customized door & sidelite widths and heights in 1/8" increments.

10-Year* Finish Warranty

for Signet Fiberglass Entry Systems

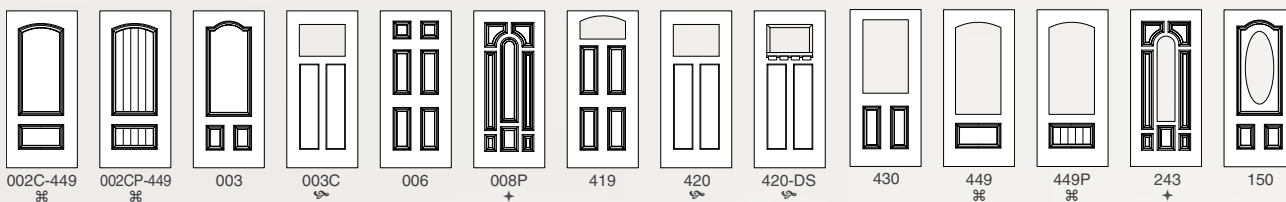

See page 64 for Signet Fiberglass paint and stain finishes

* Warranty time period may be limited in extreme exposure applications. See warranty for details.

Most Signet Fiberglass Entry Systems are ENERGY STAR Qualified.

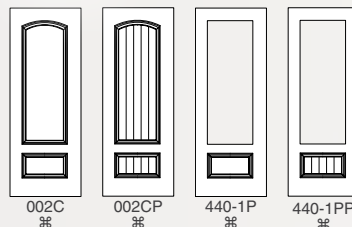

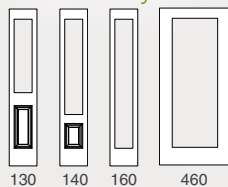

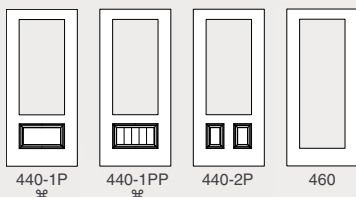

Signet Fiberglass Door Styles See pages 14-59 for glass availability.

Sidelite Styles

8' Doors

8' Sidelite

- ⌘ Signet Cherry Series Only
- + Signet Oak & Cherry Series only
- ⌘ Signet Fir Series Only

Entry System U-Factor: As low as .17
(Tested to NFRC specifications for a 6 panel door with wood frame.)

Signet Advantages

Stiles and rails are dovetailed and glued at each corner creating a structurally solid, integrated frame.

The **2½" finger-jointed 3-ply hardwood hinge stile** provides superior structural integrity.

ProVia doors are **foam filled by a computer driven process** that ensures the optimal foam fill for maximum efficiency and strength.

The **4¼" finger-jointed 4-ply hardwood strike stile** provides a solid mounting surface for decorative hardware and superior structural integrity.

The authentic wood look is made possible by using cutting-edge nickel vapor deposition technology.

Scientifically formulated compounds provide superior resistance to denting, splitting, cracking, and warping.

High-definition panel profile creates excellent shadow lines and distinct panel designs.

The revolutionary **DuraFuse Finishing System featuring P³ Fusion** yields unprecedented finish durability.

Door edge is constructed with cherry, mahogany, oak or fir wood matching the selected series.

A high-performance, composite material is utilized on all Signet fiberglass bottom rails, giving excellent rot-resistance.

Signet fiberglass entry systems come standard with an **anodized bronze threshold with a complementary riser**.

The inside door **frame is hand stained or painted to match your door** providing you with a consistent visual appearance. (Signet doors are also available with a Steel L-frame)

NEW!
for 2012

Heritage™ Fiberglass

Heritage Fiberglass doors feature enhanced woodgrain texture, improved definition embossing and a hardwood edge to prevent warping.

Oak Grain Pattern

Hemlock Grain Pattern

Only available on 006C, 420-3P & 429-3P

See page 65 for Heritage Fiberglass paint and stain finishes

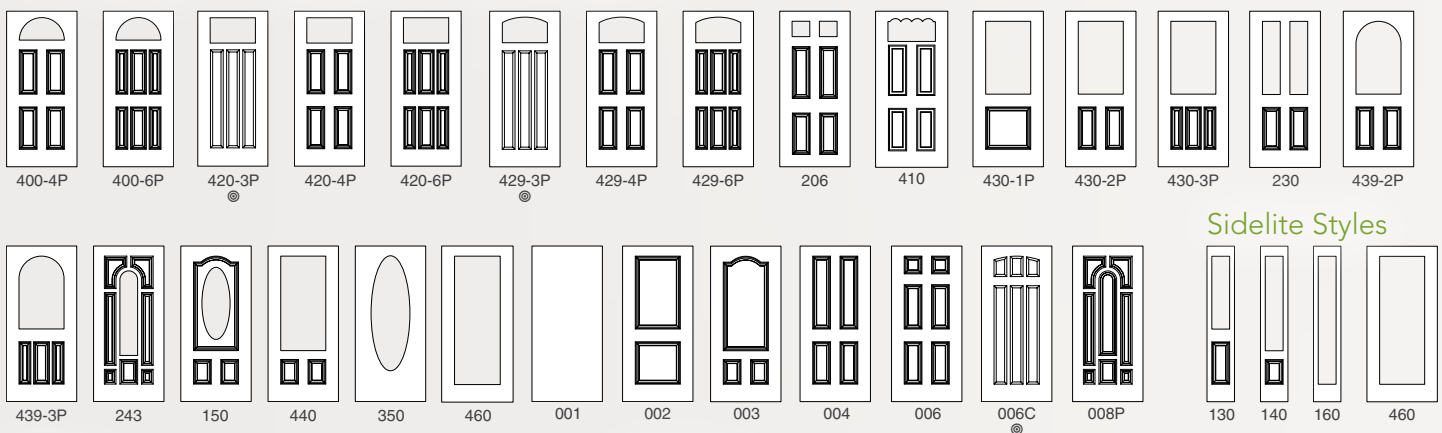

* Warranty time period may be limited in extreme exposure applications. See warranty for details.

Custom Heights Available.

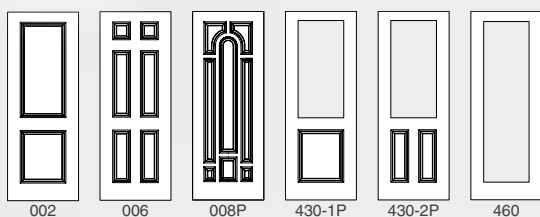

Most Heritage Fiberglass Entry Systems are ENERGY STAR Qualified.

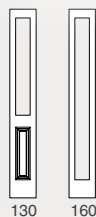

Heritage Fiberglass Door Styles See pages 14-59 for glass availability.

8' Doors

8' Sidelites

● Hemlock Grain Pattern Only

Entry System U-Factor: As low as .14
(Tested to NFRC specifications for a 6 panel door with wood frame.)

Heritage Advantages

1 $\frac{7}{8}$ " Finger-jointed, 2-ply solid oak laminated stiles are locally manufactured exclusively for ProVia Door for both hinge and strike sides and are proven to provide increased rigidity and structural integrity.

Polyurethane core reduces energy loss.

Improved definition panel profile creates excellent shadow lines and distinct panel designs.

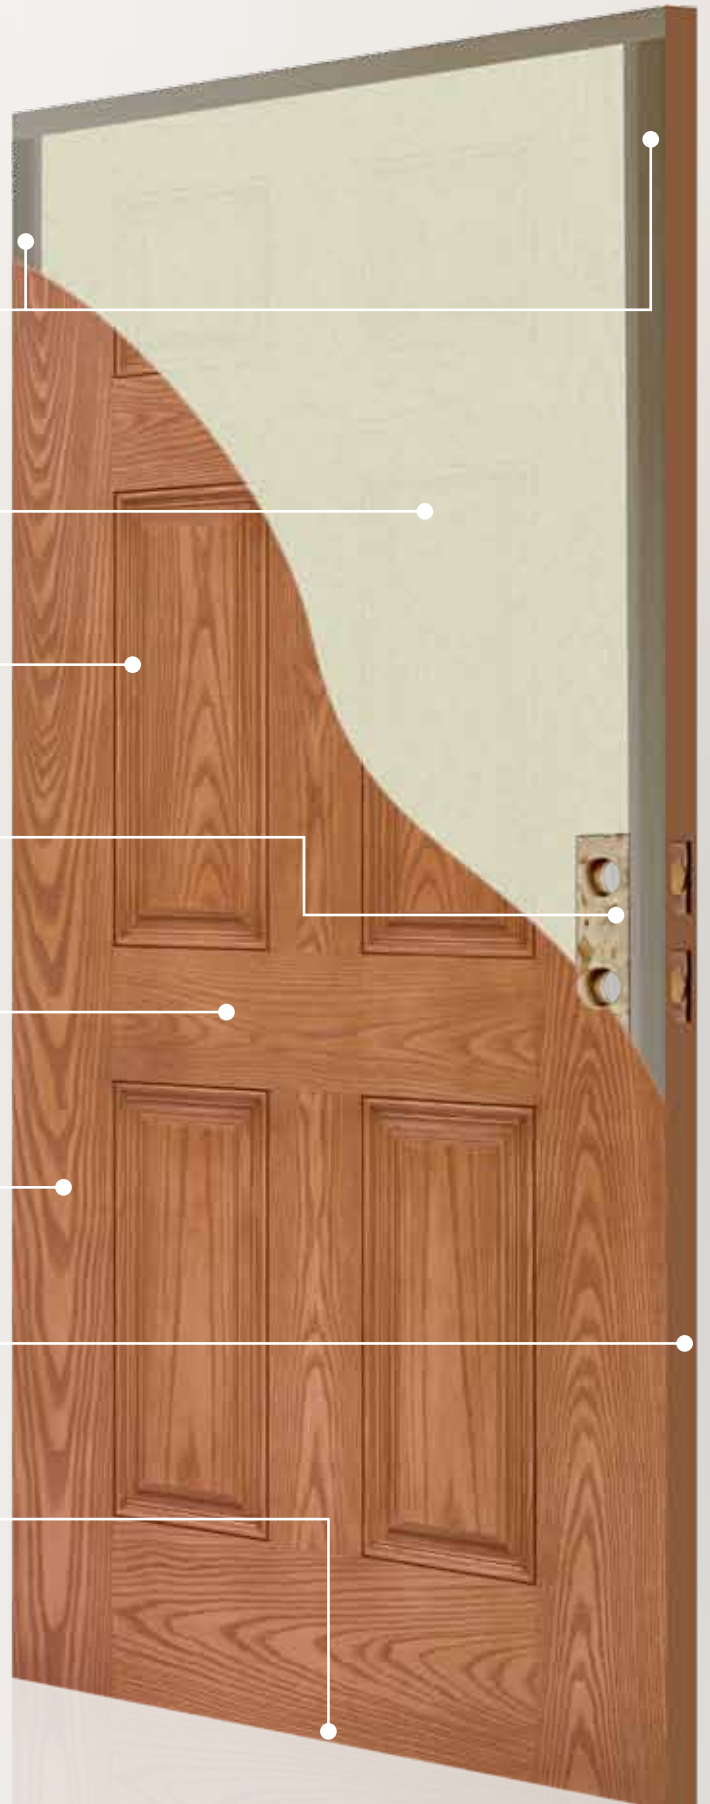

Lock area is reinforced to provide a solid mounting surface for decorative hardware.

Specially engineered fiberglass door facings will not dent and resist splitting, cracking and warping.

Variable-depth woodgrain texture with hand-applied stain imitates a wood door appearance.

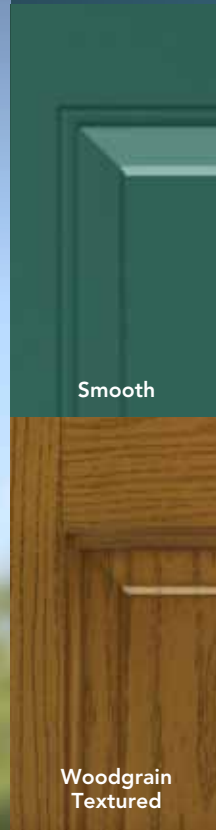

Square-edge design offers an attractive wood door appearance.

A high-performance, composite material is utilized on all Heritage fiberglass bottom rails, giving excellent rot-resistance.

Legacy Steel™

Legacy Steel features add up to a professional-class product. Whether you select Legacy Woodgrain Textured Steel or Smooth Steel, our entry systems will provide an elegant, durable and energy efficient addition to any home.

You can customize your 20-gauge entry door by ordering different styles and finishes on each side of your door.

Custom Widths & Heights.

Need a little more height or a little less width? We are pleased to offer customized door widths and heights in 1/8" increments.

See page 65 for Legacy Steel paint and stain finishes

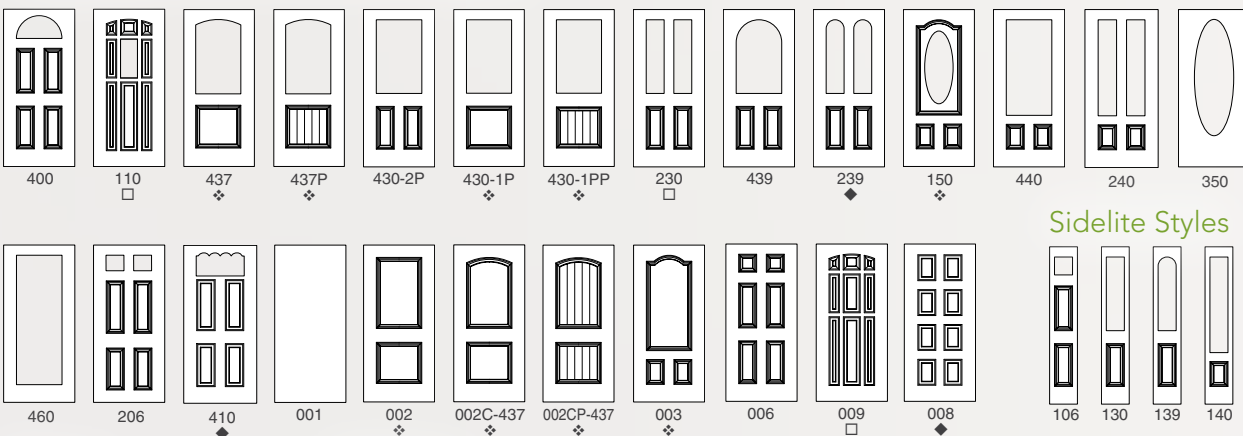

* Warranty time period may be limited in extreme exposure applications. See warranty for details.

Most Legacy Steel Entry Systems are ENERGY STAR Qualified.

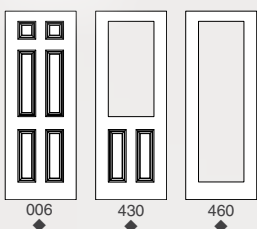

Legacy Steel Door Styles

See pages 14-59 for glass availability.

Sidelite Styles

8' Doors

8' Sidelites

- Not available in 20-gauge Woodgrain Textured Steel
- ◆ Available in Smooth Steel only
- ✦ Only available in Smooth Steel with High-Definition Embossing

Entry System U-Factor: As low as .17
(Tested to NFRC specifications for a 6 panel door with wood frame.)

Legacy Advantages

Composite top and bottom endcaps increase rigidity and energy efficiency.

The edges and face skin of our steel doors are **one continuous piece of steel** for strength and durability.

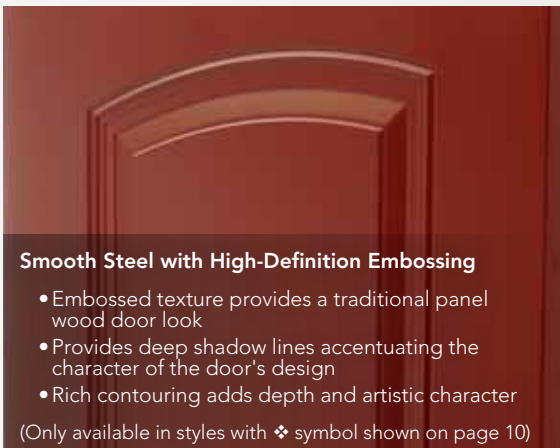

Special adhesives/thermal barrier reduce heat and cold transfer, while our exclusive tab and slot system of **mechanical interlocks** gives the door exceptional structural strength.

ProVia doors are **foam filled by a computer driven process** that ensures the optimal foam fill for maximum energy efficiency and strength.

To reinforce the lock and deadbolt area, we add a **rigid composite lock block** to all of our steel doors.

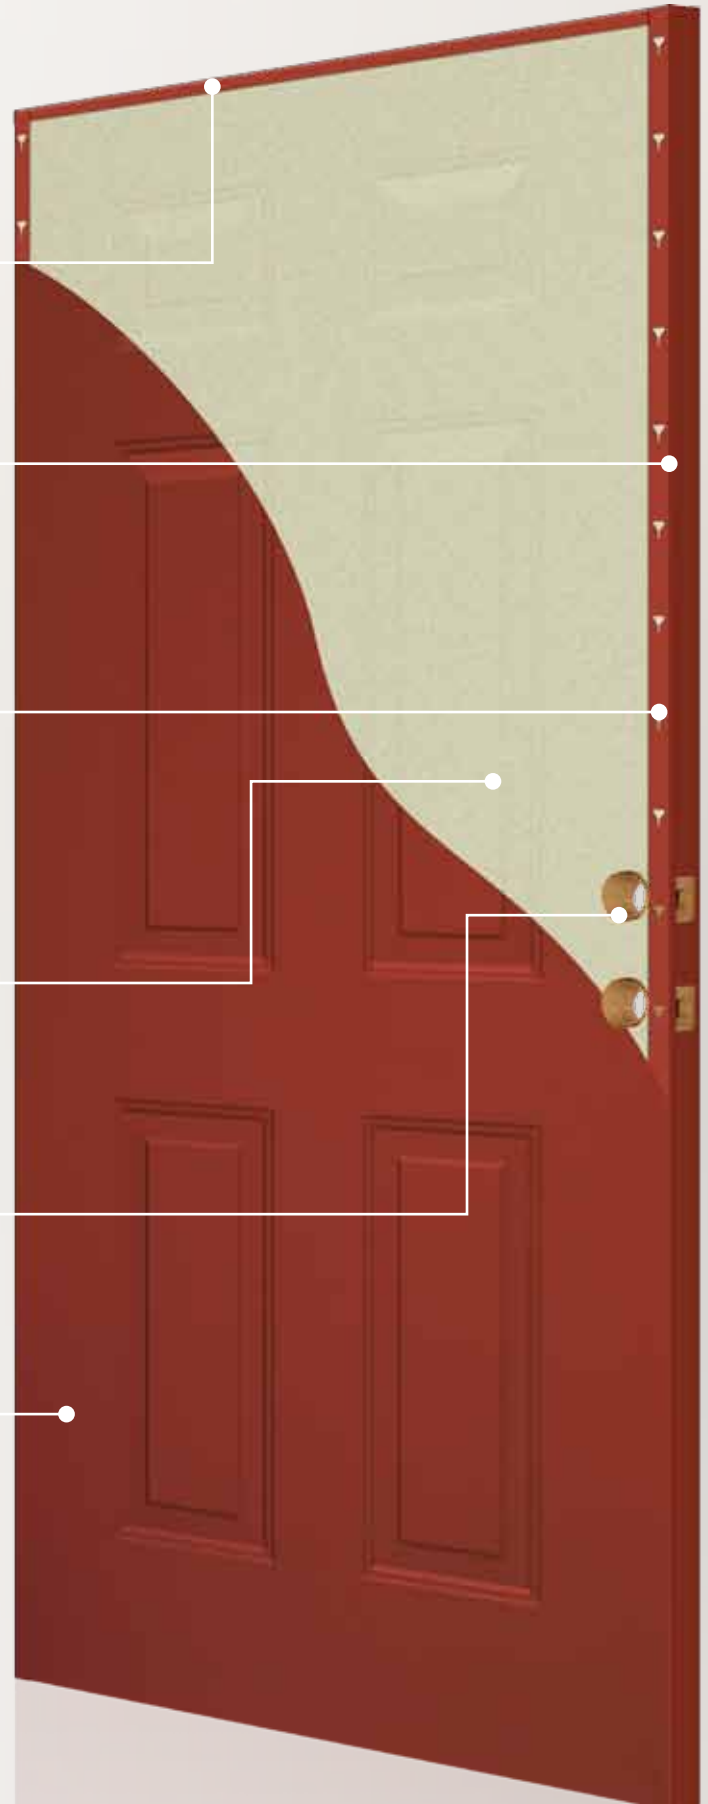

Our 20-gauge steel doors give you **49% more galvanized steel** than a standard 24-gauge door.

Smooth Steel with High-Definition Embossing

- Embossed texture provides a traditional panel wood door look
- Provides deep shadow lines accentuating the character of the door's design
- Rich contouring adds depth and artistic character

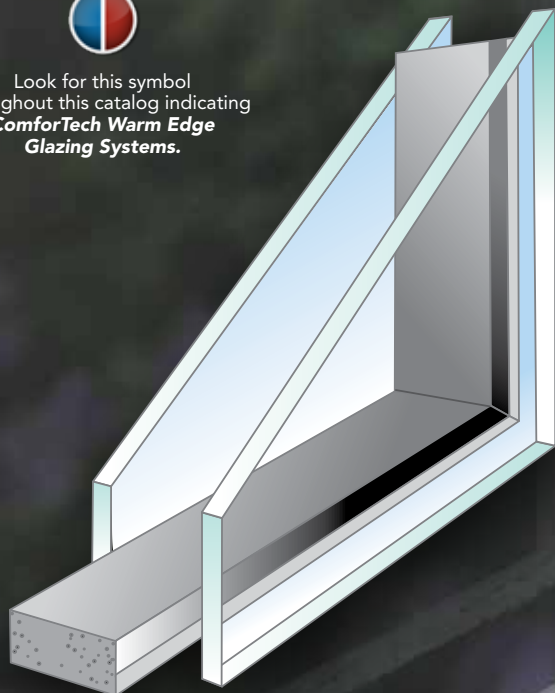

(Only available in styles with ❖ symbol shown on page 10)

ComforTechTM glass

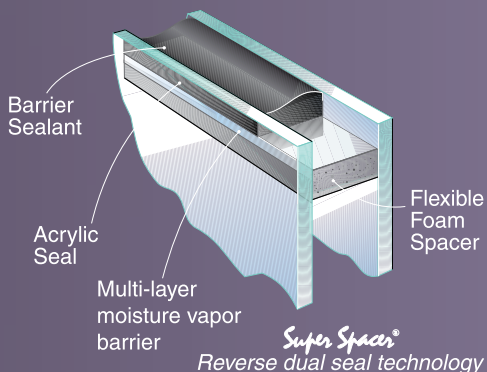

Look for this symbol throughout this catalog indicating **ComforTech Warm Edge Glazing Systems.**

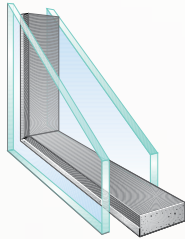

Measurably improve thermal performance with our ComforTech warm edge glazing system. You'll enjoy better energy efficiency and a warmer glass edge.

ComforTech Warm Edge Glazing System is Included in all:

- Cheyenne, Brilliance, Barcelona, Tranquility & Twilight Decorative Glass
- Inspirations Art Glass
- Privacy Glass
- Clear Glass
- Internal & External Grids
- Designer Patio Doors
- PrestigeTM Vinyl Sliding Patio Doors
- Vinyl Replacement Windows

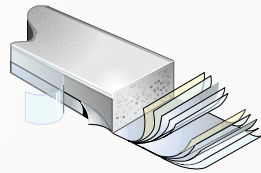

ComforTech™ Advantages

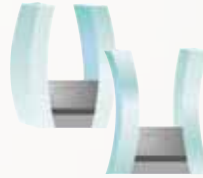

The NO-Metal Advantage

"Thermal efficiency through no presence of conductive metals" is the Super Spacer® hallmark.

Mylar 10-Layer Vapor Barrier

The Super Spacer® thermoset foam matrix is exceptional. Moisture is kept out, gas is kept in and conductivity is virtually nonexistent.

Withstands Normal Bowing

The design of our Warm Edge Glazing System stands up to the bending and bowing that is natural in any glass unit.

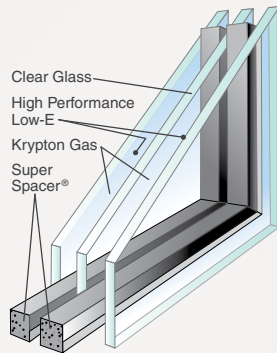

Enhanced Noise Reduction

Our all-foam formula's excellent sound-dampening properties reduce outside noise, even in industrial environments.

Tuscany

series

Tuscany features a unique lamination that holds shattered glass together maintaining security beautifully.

440TUS

High Performance Benefits

Remarkable beauty and security at a great price. 99% UV blockage prevents fading of carpets and furniture.

Forced Entry Deterrent

All glass can be shattered after continuous impact, but these laminated decorative designs are break-through resistant. Deters burglaries and storm damage.

Tuscany Styles

Tuscany glass is designed to deter burglaries and storm damage. Unfortunately, entry systems with Tuscany glass are not ENERGY STAR qualified.

Art Glass

All Inspirations Art Glass
includes our **Comfortech**
Glazing System.

Inspirations™

Inspirations Art Glass allows you to do just what the name suggests, let your doors and windows reflect the inspiration of your imagination with your choice of design and color.

770VIN, 150VIN (Timberland)

Designs:

The process begins with conceptual design. Our eight beautiful Inspirations Art Glass styles originated from the imagination of our in-house designers.

Resin Bead:

The design pattern is created on our computer software, and sent to a CNC machine which applies a resin bead to the surface of the glass in one of our four stylish colors.

Color Fill:

The color fill truly brings the glass to life. Five distinct color palettes are offered empowering you to perfectly reflect the personality of you and your home. Our craftsmen hand-apply this color fill to your glass.

Our Guarantee:

The resin bead and color fill are backed by our Lifetime Limited Warranty, and will not fade, blister or peel away from the glass.

Ask to see our Inspirations Art Glass brochure for available styles and color palettes, or use ProVia Studio to create custom color palettes & design your dream door.

Collection

Privacy

All Privacy Glass includes our **ComforTech Glazing System**.

Privacy glass allows light to filter in, while keeping a high level of privacy with Chinchilla, Taffeta, Waterfall, Gluechip and Obscure Pebble glass.

All entry systems with Privacy Glass can be ENERGY STAR qualified depending on the glazing system you choose. This chart indicates which glazing system is required for ENERGY STAR qualification, as well as availability.

Door Styles	Glazing Systems			
Half-lite or Larger 460, 460, 449, 440, 437, 430, 430, 439, 240, 239, 230	TLK	TLA	DLA	DC
Smaller than Half-lite 429, 420, 419, 400, 400, 243, 110	DC			

ENERGY STAR Qualified

Refer to pg. 13 for Glazing Systems information

Since Low-E glass has a slight color tint, it is recommended that sidelites be ordered with the same glazing system as the door.

Simulated Divided Lites for Signet Fiberglass

Simulated Divided Lites (SDL) on our Signet Fiberglass entry doors are reminiscent of old world craftsmanship when separate pieces of glass were mulled together with wooden grids. We deliver that same stunning appearance through our high-tech stained fiberglass 1" wide x 1¹/₃₂" thick grids combined with the energy efficiency qualities of our ComforTech glass packages.

Contoured - Available in Signet Cherry, Mahogany, and Oak Series

Craftsman - Available in Signet Fir Series

Signet SDL Grid Styles

Note - All Signet doors and sidelites with SDL's are available with privacy glass.

See Price List for additional available styles.

Finishes

WE do
the finishing...

If you buy an entry system and finish it yourself, chances are it's the first door you've ever painted or stained. At ProVia, each Signet door is factory finished in a controlled environment with our DuraFuse™ Finishing System ensuring a consistent, beautiful, lasting finish every time.

Stains are hand-applied by professional craftsmen, many of whom have been perfecting their work for years, with thousands of finished entry systems under their belt.

* Warranty time period may be limited in extreme exposure applications. See warranty for details.

...so **YOU**
don't have to.

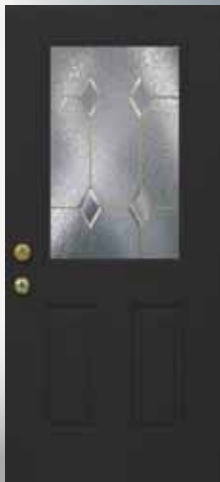

You wouldn't try to paint one of these yourself, so why should it be any different when it comes to painting or staining your entry door?

Our robotic paint process combined with a controlled environment ensures a consistent, even coating every time.

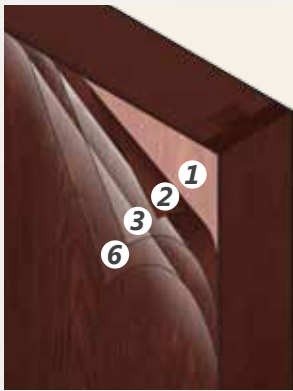

Finishes

Signet Fiberglass Finishes

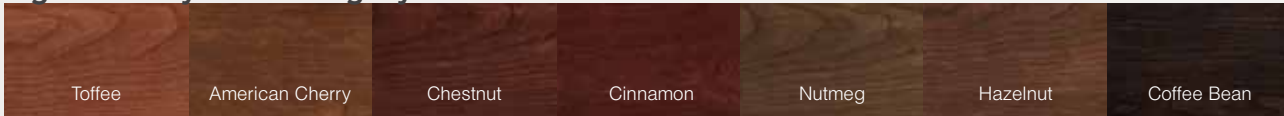

DuraFuse™ Stain Finishing System

- 1. P³ Fusion**
Proprietary Preparation Processes ensuring unprecedented finish durability
- 2. Stain Finish**
Hand-applied finish formulated exclusively for Signet fiberglass
- 3. UV Resistant Clear Coat**
A layer of 2-part urethane, catalyst hardened clear coat with UV inhibitors is applied
- 4. Oven-Cured**
Clear coat is oven-cured for lasting durability
- 5. Hand-Sanded**
The door is sanded, preparing the surface for the second layer of clear coat
- 6. UV Resistant Clear Coat**
A second layer of 2-part urethane, catalyst hardened clear coat with UV inhibitors is applied
- 7. Oven-Cured**
The door is oven-cured a second time, creating a long-lasting, durable finish

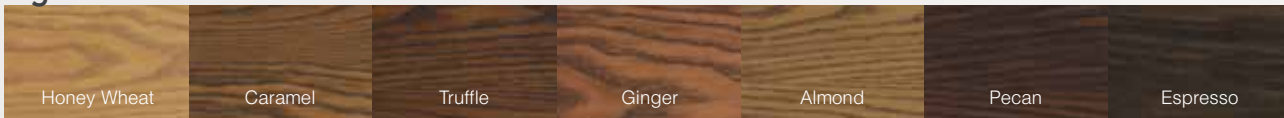

Signet Cherry and Mahogany Stains

To select stain color, refer to our color selector for accurate color representation.

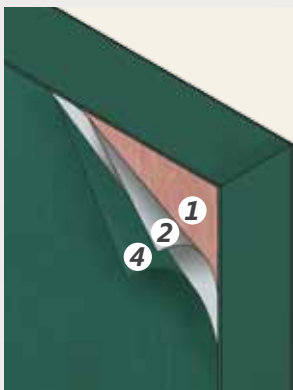

Signet Oak and Fir Stains

To select stain color, refer to our color selector for accurate color representation.

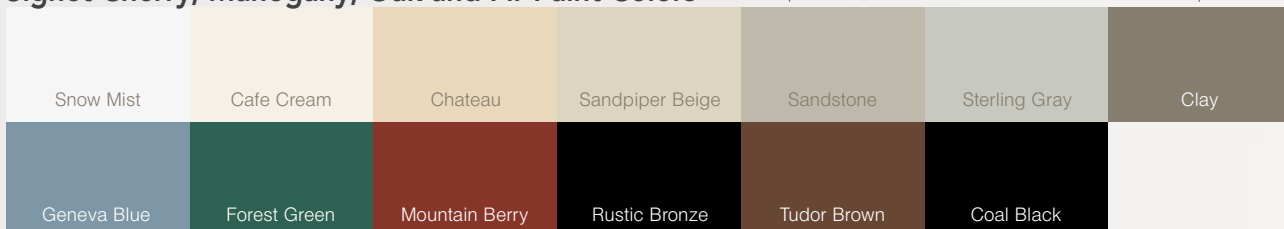

DuraFuse™ Paint Finishing System

- 1. P³ Fusion**
Proprietary Preparation Processes ensuring unprecedented finish durability
- 2. Base Coat (Prime Paint)**
A 2-part urethane, catalyst hardened base coat is applied by a robotic reciprocating paint system
- 3. Oven-Cured**
Base coat is oven-cured for lasting durability
- 4. Finish Coat**
The door is then coated with a 2-part urethane, catalyst hardened finish coat
- 5. Oven-Cured**
The door is oven-cured a second time, creating a long-lasting, durable finish

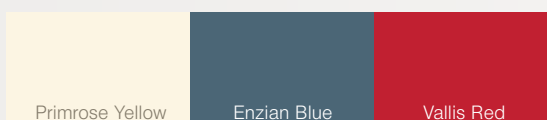

Signet Cherry, Mahogany, Oak and Fir Paint Colors

To select paint color, refer to our color selector for accurate color representation.

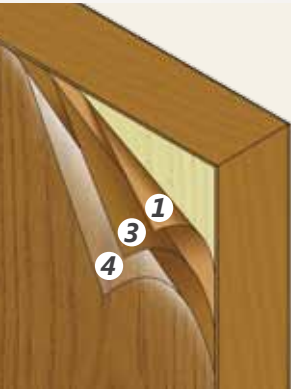

Limited Colors

Available on entry doors and storm doors.
Matching cladding and caulking not available.

Heritage Fiberglass & Legacy Steel Finishes

5-Step Stain Finishing System

- 1. Base Coat (Prime Paint)**
A 2-part urethane, catalyst hardened base coat is applied by a robotic reciprocating paint system
- 2. Oven-Cured**
The base coat is oven-cured for lasting durability
- 3. Stain Finish**
A coating of hand-applied stain is added for enhanced beauty
- 4. UV Resistant Clear Coat**
A layer of 2-part urethane, catalyst hardened clear coat with UV inhibitors is applied
- 5. Oven-Cured**
The door is oven-cured a second time, creating a long-lasting, durable finish

Heritage Fiberglass & Legacy Textured Steel Doors

To select stain color, refer to our color selector for accurate color representation.

Woodgrain Textured Steel

Legacy 22-gauge
Woodgrain Textured Steel

5-Step Paint Finishing System

- 1. A40 Hot-dipped Galvannealed**
300% more coating thickness than 40Z Full Electrolytic Zinc Coated steel, resisting rust inside and out
- 2. Base Coat (Prime Paint)**
A 2-part urethane, catalyst hardened base coat is applied by a robotic reciprocating paint system
- 3. Oven-Cured**
Base coat is oven-cured for lasting durability
- 4. Finish Coat**
The door is then coated with a 2-part urethane, catalyst hardened finish coat using our state-of-the-art electrostatic application
- 5. Oven-Cured**
The door is oven-cured a second time, creating a long-lasting, durable finish

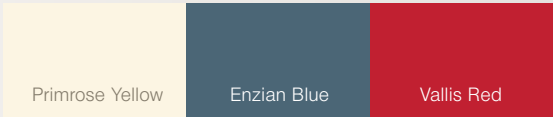

Heritage Fiberglass & Legacy Steel Doors

To select paint color, refer to our color selector for accurate color representation.

Limited Colors

Available on entry doors and storm doors. Matching cladding and caulking not available.

series hardware
Emtek®

EMTEK's unique interconnected feature provides the security of deadbolt locking while providing panic-proof exiting utilizing simultaneous retraction of both latch and deadbolt from the inside, by operation of the knob/lever.

- **Heavy Duty Diecast Construction**
For long lasting beauty
- **Durable Springs**
To prevent lever sag
- **Threaded Brass Tubes**
Solid brass nose bolts & sintered metal cams
- **Lifetime Mechanical Warranty**
Our guarantee of value
- **Lifetime Anti-tarnish Finish Warranty**
Beauty for life*

All Emtek hardware is available in these finishes

Lifetime Bright Brass

Lifetime Satin Nickel

Oil Rubbed Bronze*

* Because of the nature of the finish, Oil Rubbed Bronze has no finish warranty.

Oil Rubbed
Bronze Finish
with use

Emtek's oil rubbed bronze finish is underlain with copper. Normal use will produce natural oxidation of the finish and reveal rich highlights on raised portions of the design.

Schlage® LiNK.

Access to a whole new level of freedom.

Introducing Schlage LiNK. Now, no matter where you go, the front door is within reach. That's because Schlage LiNK is more than a lockset. It's a brilliant new way to enhance your home's security, and your family's peace of mind.

On the surface, Schlage LiNK looks like a keypad entry lock — and it is. But it also features technology

that allows you to use your smart phone or computer to remotely unlock your doors, monitor entry, and change pass codes. You can even pair Schlage LiNK with other household items like lights and appliances for additional security and convenience.

That's freedom. That's intelligence.
That's Schlage LiNK.

Trilennium™

multipoint hardware

The Trilennium multipoint hardware system provides more than just security. It offers homeowners better door closure and sealing than a single point lock.

- All three points latch with a 1" deadbolt throw.
- Top and bottom latch design allows for door misalignment and $\frac{3}{16}$ " pull-in when deadbolted.
- Release of the latch and deadbolt is a single downward movement.
- Deadbolts include anti-saw hardened steel pin.
- Lifetime finish warranty and 10-year warranty on materials and workmanship.
- Hardware available in your choice of Bright Brass or Satin Nickel.

All Emtex hardware is available in these finishes

Prestige™ Vinyl Patio Doors

All Prestige Patio Doors
includes our **ComforTech**
Glazing System.

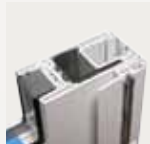

Prestige Vinyl Patio Doors are tested against the most stringent industry standards for air and water infiltration, wind-load resistance, ease of operation, forced entry and much more. This means you'll have lower heating and air-conditioning costs, easier cleaning, low maintenance and increased comfort.

Standard Features

Strong, multi-chamber profiles and 5½" frame depth offer greater thermal efficiency and increased sound abatement.

Galvanized steel reinforced panels ensure rigidity and stable operation.

The **vent lock** adds peace of mind when you want to leave the door open for ventilation yet keep would-be intruders out.

Fixed and mobile **panel rails meet and interlock perfectly**, making removal from the outside virtually impossible. **Lower sill design** provides safer entry and exit.

Sill is reinforced with galvanized steel. Pair that with our **patented water draining system**, and it results in an efficient and durable base for our patio door.

Patented sliding system features four adjustable 1" wheels per operating panel to ensure smooth, easy and quiet operation.

Suspended by ball bearing rollers this **top-hung heavy duty aluminum screen frame** reduces binding, creating effortless operation.

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. **NEW BetterVue™ fiberglass screen** is standard. Heavy-duty fiberglass, aluminum, or SeeVue™ stainless steel screen is optional.

Rustic Bronze	Tudor Brown	Coal Black		

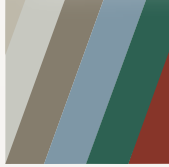

Limited Colors

Available on entry doors and storm doors.

Matching cladding and caulking not available.

Primrose Yellow
Enzian Blue
Vallis Red

Storm Door Construction

Durable, oven-baked polyester finishes are backed by a Lifetime Warranty for lasting beauty and low maintenance.

Extruded aluminum frame adds beauty to your door by virtue of the rounded **cove molding along the glass edge** of the extrusion.

All our storm doors are constructed with **tempered safety glass**.

You'll appreciate the finished look of our **color matched aluminum installation screw covers**.

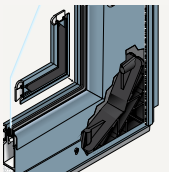

Each door features **quality hardware** that adds beauty and functionality to your new storm door. Varies by model.

Sashes are secured by our **color matched polycarbonate clips or an internal sash lock system**. Varies by model.

Smooth function is essential. That's why we include a **quality door closer** in every storm door package. Varies by model.

Corrosion proof corner gussets enhance the structural integrity of the door.

Color matched bottom expanders allow for a beautiful custom fit to any entry.

Our bottom expander with sweep allows for adjustment to ensure a snug fit as needed. Varies by model.

Storm Door Details

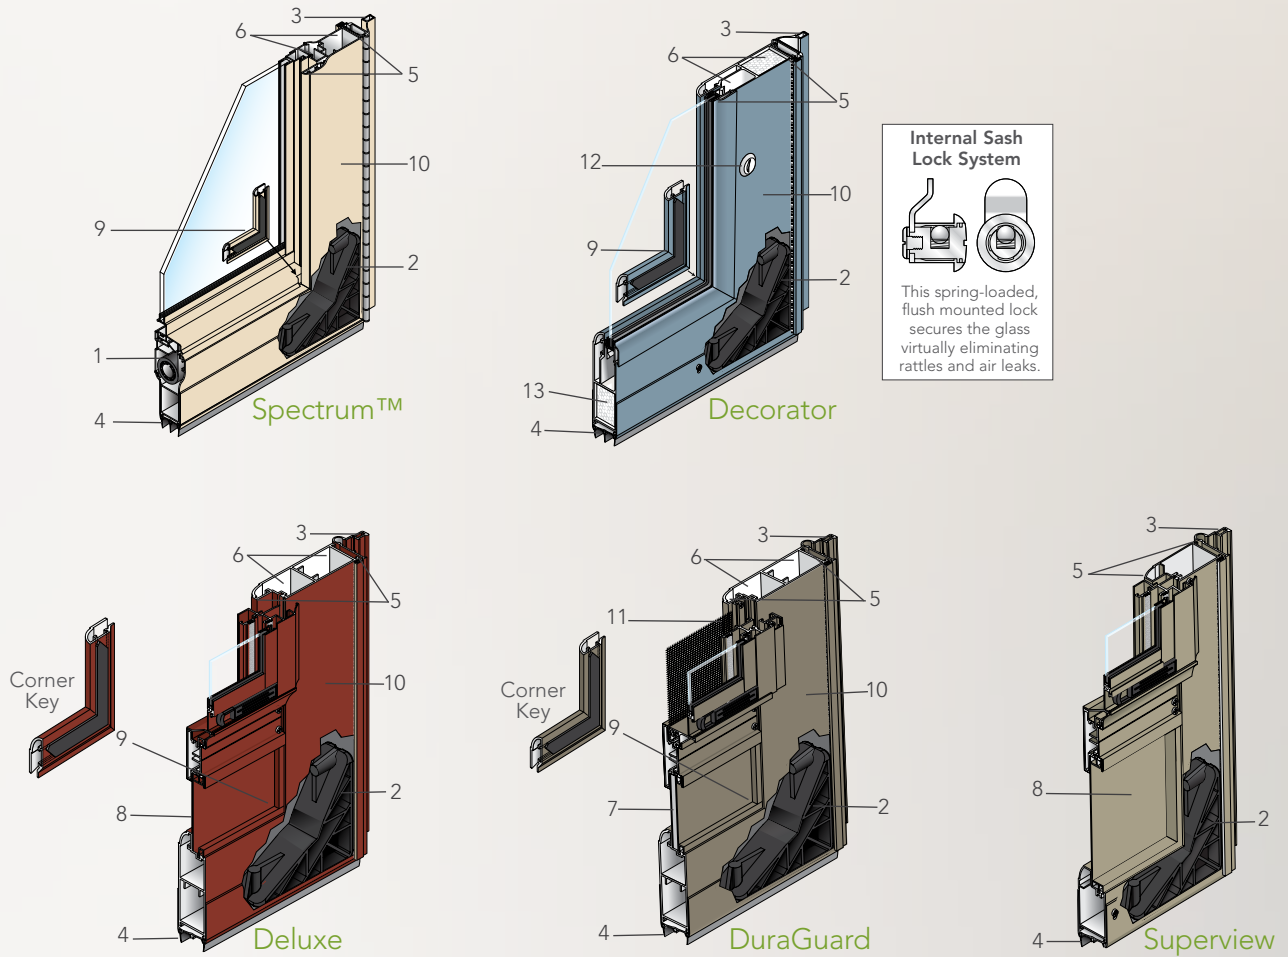

The details are the small things that set our storm doors apart from the competition. A lot of small things add up to a big difference.

Our storm doors excel in Beauty, Durability, Security and Energy Efficiency. And we offer a Lifetime Limited Transferable Warranty on all our storm doors.

To select stain color, refer to our color selector for accurate color representation.

Mortise Hardware

Mortise Hardware adds a special touch to your storm door with a solid brass handleset to suit your style. Our mortise hardware conveniently allows you to use the same key for your storm door and your ProVia entry door.

Our mortise hardware features a multi-point locking system for added strength and security not found on typical consumer-grade storm door hardware.
